## EDUCATION

|                                                   |              |
|---------------------------------------------------|--------------|
| UNIVERSITY OF PISA, COLING LAB                    | Pisa         |
| PhD in Linguistic Studies and Foreign Literatures | 2022-current |
| (Field: Computational Linguistics), PhD candidate |              |
| Supervisors: Alessandro Lenci, Domenica Romagno   |              |
| UNIVERSITY OF PISA                                | Pisa         |
| Master's Degree in Linguistics and Translation    | 2019-2021    |
| (Curriculum: theoretical and applied linguistics) |              |
| 110/110 cum laude                                 |              |
| Supervisor: Alessandro Lenci                      |              |
| UNIVERSITY OF PISA                                | Pisa         |
| Teaching qualification (Pf-24)                    | 2020         |
| UNIVERSITY OF PISA                                | Pisa         |
| Bachelor's Degree in Humanities                   | 2015-2018    |
| Supervisor: Domenica Romagno                      |              |

## RESEARCH INTERESTS

Computational psycholinguistics: Distributional semantics, NLP, interpretability and explainability, neural symbolic networks, mechanistic interpretability, pLoT, grounding.

Linguistics: pragmatics and experimental pragmatics, interface between semantics and pragmatics and between semantics and morphosyntax, lexical semantics, Theory of Mind, conversational implicatures.

## VISITINGS AND RESEARCH ABROAD

|                           |                          |
|---------------------------|--------------------------|
| UNIVERSITY OF TEXAS       | Austin                   |
| Visiting Scholar          | November 2024-April 2025 |
| Supervisor: Kyle Mahowald |                          |

## TRAININGS AND SUMMER SCHOOLS

|                                          |                  |
|------------------------------------------|------------------|
| BLUE DOT IMPACT                          |                  |
| AI Safety Fundamentals: Alignment Course | 19/06-30/09/2024 |

*(Selected among 1045 applicants)*

KU LEUVEN UNIVERSITY

ESSLLI 2024

28/07-09/08/2024

*35<sup>th</sup> European Summer School in Logic, Language and Information*

UNIVERSITY OF BARI

Lectures on Computational Linguistics 2024

19-21/06/2024

UNIVERSITY OF LJUBLJANA

ESSLLI 2023

31/07-11/08/2023

*34<sup>th</sup> European Summer School in Logic, Language and Information*

UNIVERSITY OF LJUBLJANA

ESSAI and ACAI 2023

24-28/07/2023

*1<sup>st</sup> European Summer School on Artificial Intelligence (ESSAI)*

*20<sup>th</sup> Advanced Course on Artificial Intelligence (ACAI)*

UNIVERSITY OF PISA

Lectures on Computational Linguistics 2023

29-31/05/2023

UNIVERSITY OF PISA

Curricular internship by CoLing Lab (Laboratory of Computational Linguistics) 2020

*Study of neural language models based on Transformers*

*Statistical analysis with R*

**INDUSTRY EXPERIENCE**

ACCENTURE TECHNOLOGY SOLUTIONS S.r.l.

Internship by Accenture (Mobile Studio department)

21/03/2022 – 31/10/2022

*Mobile application development: Scuderia Ferrari for iOS*

**AWARDS AND FUNDS**

Scholarship “DSU Toscana”

2015-2021

**ORGANIZATION OF SCIENTIFIC EVENTS**

University of Pisa. *Fenomenologie della memoria: studi linguistici, letterari e filologici a confronto*. 4-5/07/2024

University of Pisa. *Formae Mentis: percorsi di studio tra letteratura e linguistica*. 28-29/11/2023

University of Pisa. *Processi di scrittura e riscrittura tra letteratura e linguistica*. 7-8/06/2023

## ACADEMIC SERVICE

Peer-reviews: INPRA 10<sup>th</sup> (2024), Clic-it (2024)

PhD's representative from 2023 to current

FSG (student tutor): 2022/2023 and 2023/2024

## ORAL PRESENTATIONS

- Agnese Lombardi, Alessandro Lenci. Large Language Models and Theory of Mind. An analysis with Indirect Speech Acts. At *Th-XPRAg – IGG49 Pre-conference Workshop*, 21/02/2024.
- Agnese Lombardi. Large Language Models and Theory of Mind. How to test it through Conversational Implicatures. At *Formae Mentis: percorsi di studio tra letteratura e linguistica*, 28/11/2023.

## POSTERS

- Agnese Lombardi e Alessandro Lenci. Agentività e telicità in GILBERTo: Implicazioni cognitive. *CLiC-it 2021*.

## CONFERENCE PROCEEDINGS

- Agnese Lombardi e Alessandro Lenci. Agentività e telicità in GILBERTo: Implicazioni cognitive. In *Proceedings for Eighth Italian Conference on Computational Linguistics - CLiC-it 2021*.

## SKILLS

Languages:

Italian (native)

English

French

Computer Skills:

Python (intermediate)

Java (intermediate)

SwiftUI (intermediate)

Git (beginner)

Dart / Flutter framework (beginner)

Github: <https://github.com/agneselombardi>

Libraries:

Pandas

Psycholinguistic tools:

Prolific
